

A microscopic view of numerous red blood cells, appearing as biconcave discs, scattered across a dark red background. The cells are illuminated from the side, creating highlights and shadows that emphasize their three-dimensional structure. The overall color palette is a range of reds, from deep maroon to bright, almost white highlights on the cells' surfaces.

A young man with glasses, wearing a dark blue polo shirt and black trousers, is sitting on a blue folding chair in a brightly lit room. He is giving a thumbs-up gesture. In the background, other people are seated at tables, and a staff member in a white uniform and cap is visible. The room appears to be a blood donation center. The left side of the image has a dark red overlay with a pattern of blood cells.

"Being a blood donor, I believe that my contribution to the local community can help save the lives of patients who require blood transfusions."

Muhamad Hazim Bin Muhamad Said

“The opportunity was very fulfilling as it allowed giving something back to the community and helping our country.

Also, a great program to meet new people and improve interpersonal skills. This is very good program that we need to continue carry out every year”.

“I’m proud as part of Alpha’s employee. Alpha as private company in the manufacturing industry is able to organize this event on yearly basis without failed. We contribute to corporate social responsibilities besides our main activity which is to produce copper rod and wire. We encourage more Alpha’s employee to be one of the blood donor in near future.”
